

Vacancy  
Working Group Co-Lead: Real World Evidence

The Real World Evidence Working Group is actively seeking a new Co-Lead to work alongside Berber Snoeijs and Ashwin Rai.

The Real World Evidence Working Group focuses on advancing the use of real-world evidence by sharing best practices and fostering discussion. It aims to explore the requirements, technologies, and processes needed to use RWE in data analysis, integrate it into clinical trials, and support its role in regulatory submissions.

We currently have seven active projects within this Working Group. An overview of the Working Group and its projects, including expected deliverables and timelines, can be found [here](#).

Expectations:

- Be a thought leader and have a passion for driving the industry forward by proposing new projects to the PHUSE Working Groups Leadership and Deliverable Committee
- Commit to attend and actively contribute to the PHUSE Working Groups Operations Committee
- Commit to attending and leading PHUSE events alongside Project Leads, representing the Real World Evidence Working Group
- Lead the Working Group and support the Project Leads to ensure the timely success of each project.
