

Pharmaceutical Users Software Exchange (PhUSE)

Mission

Providing the industry with the premier platform for creating and sharing ideas, tools, and standards around data, statistical and reporting technologies; PhUSE is a global organization of professionals who are passionate about advancement of clinical information through technology.

- Idea was born in 2004 because Europe needed a forum for sharing
- First conference held in Heidelberg – over 270 attendees from 12 countries
- Have held conferences across Europe and grown to 400-500 attendees
- Journal introduced in 2008
- Single Day events began in 2009

More then a conference...

PhUSE is an organization that provides a variety of networking opportunities

- Annual Conference/Single day events
- Journal twice a year/Newsletter quarterly
- New Wiki in collaboration with FDA

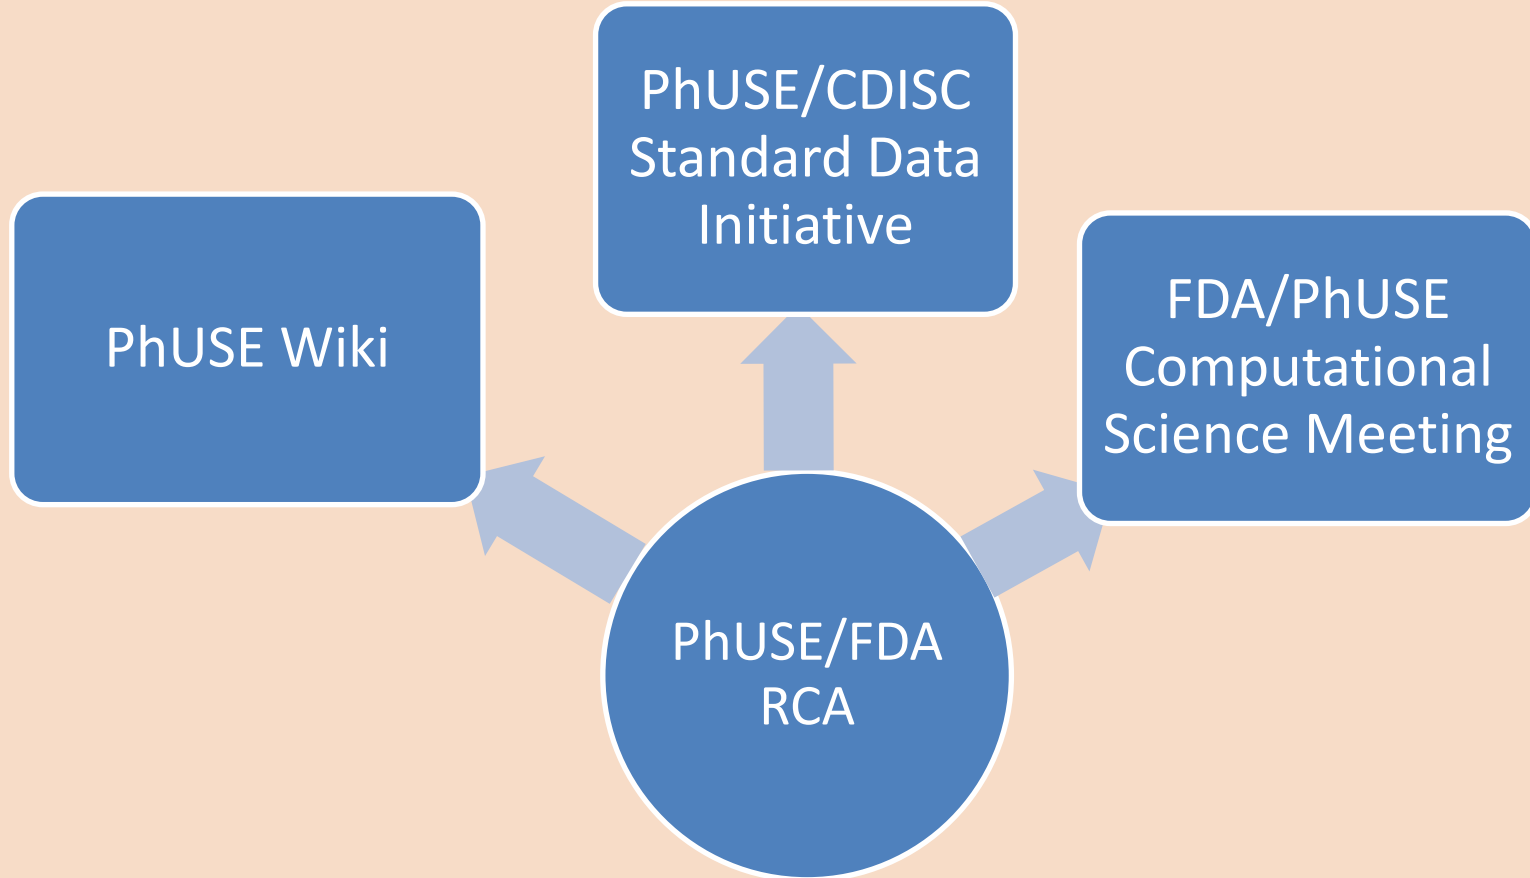

PhUSE provides a unique experience

- Vendor neutral
- Events emphasize interaction and discussion
- Collaboration with FDA

FDA Collaboration

- PhUSE and FDA signed a Research Collaboration Agreement (RCA)
