Comprehend Clinical™ is a next-gen, web-based clinical visualization and analytics tool.

Answer all questions in real time, regardless of where the data resides.

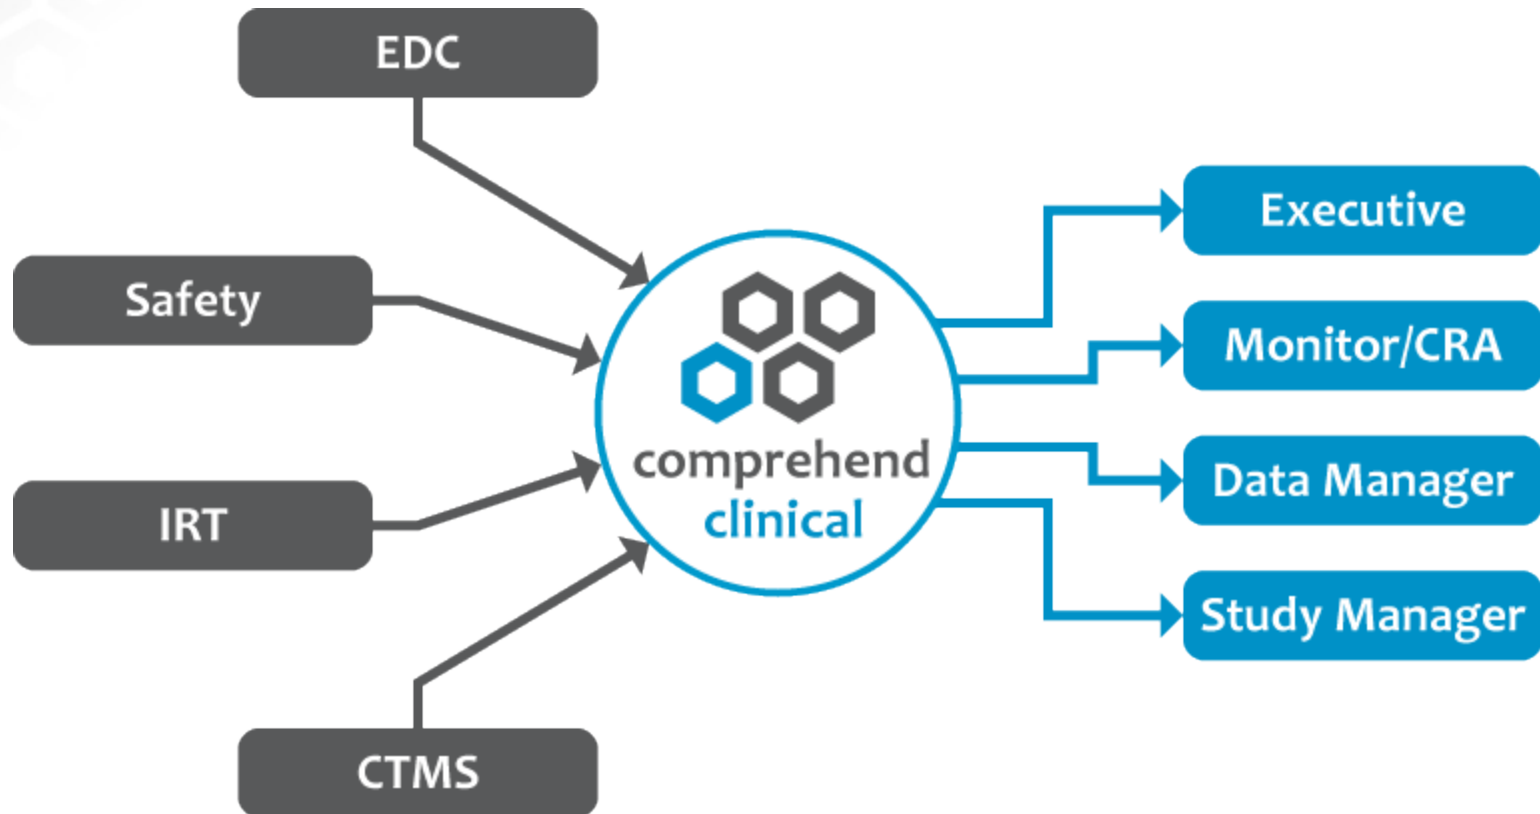

You Want to Ask Simple Questions...

But your data is spread across multiple:

- ❖ Studies
- ❖ Databases
- ❖ CROs
- ❖ Systems, like: EDC, IRT, CTMS, Safety, Finance, etc.
- ❖ Vendors, like Medidata, Oracle, BioClinica, etc.

**And you don't want to rely on
a large, extended team everyday.**

Connects All Data in Real Time

Example Use Cases for Sponsors

- ◊ **Identify underperforming sites**
 - ◊ Identify underperforming sites and who's responsible. More efficiently deploy monitors.
- ◊ **Real time alerting**
 - ◊ Know when contracts are signed, sites come online, or Adverse Events are entered.
- ◊ **Risk-based monitoring**
 - ◊ Automatically be notified of trigger events
- ◊ **Empower your DSMB and Data Managers**
 - ◊ Identify potential problems early in the process.

Your Most Important Metrics

Site Information

- Site level drug thresholds
- Enrollment / randomization
- Identify non-performing sites
- Time between data collection and entry

Safety and Efficacy

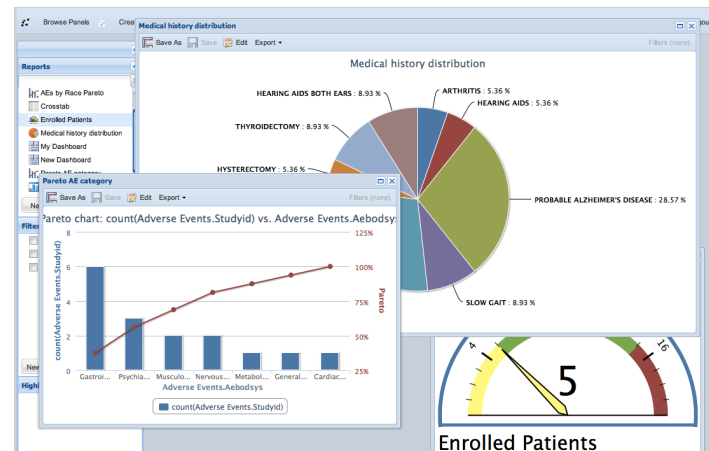

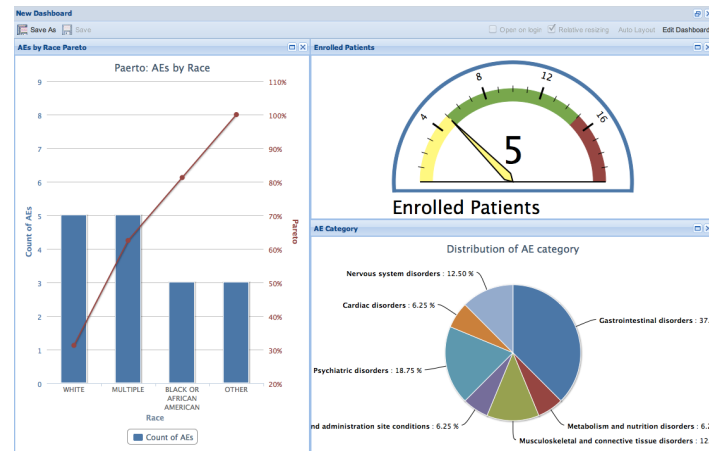

- Are there hidden safety issues?
- View SAE's by site or region

Supply and Resupply

- Initiated and Pending Shipments
- Lost or damaged kits. Drug expiry

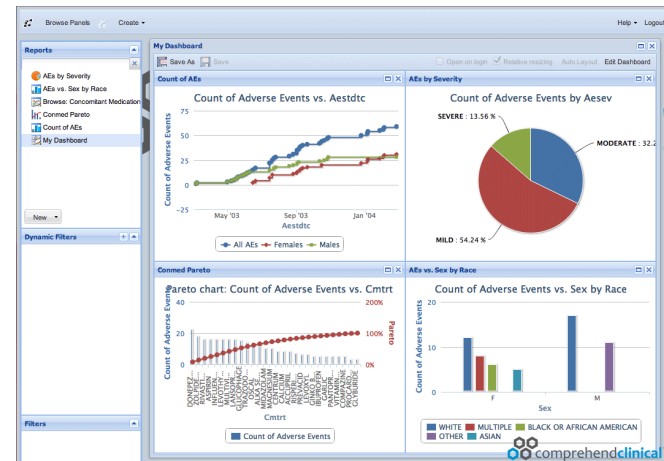

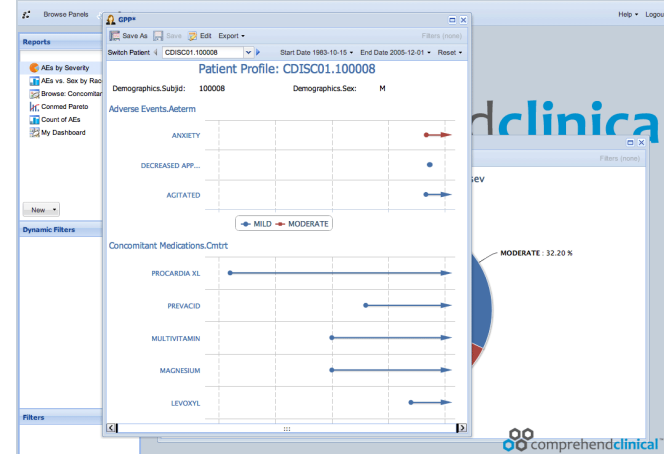

Patient Management

- Dose Information
- Early Withdrawal / Completion

Feature Overview

- Simple Ad-hoc Reporting
 - Drag-and-drop interface
- Dashboard Interface
 - Follow your most-important metrics
- Intelligent Click-Through
 - Explore outliers and other problems
- Filters and Subsets
 - Analyze specific sub-populations
- Reports
 - Export to PDF, Excel & PowerPoint

Access your data from anywhere

Part 11 Compliance

- ◊ Good Documentation Practices (GDPs)
- ◊ Title 21 CFR Part 11-compliant
 - ◊ Detailed data audit trail
 - ◊ Tested and validated systems for the specified requirements
 - ◊ Disaster recovery procedures and backup facility
 - ◊ Record retention and protection procedures
 - ◊ Restricted user access to the system

Comprehend Deployment

- ◈ No capital investment, pay-as-you-go
- ◈ Setup in 7-10 business days
- ◈ Per-study pricing
- ◈ Secure datacenter
- ◈ No ongoing IT support
- ◈ Cross-study, cross-CRO, cross-database

*Onsite deployment available!

Comprehend Clinical Differences

- ◈ **Technology** – Works with all standard web browsers, without plugins. Includes mobile browsers, like iPad and iPhone.
- ◈ **Visualization and Analytics** – Easy-to-use and powerful ad-hoc reporting and dashboards. Which can be embedded on website or SharePoint.
- ◈ **Truly Multi-Datasource** – Easily connects data from multiple datasources, studies, CROs, and vendors, in real-time to answer questions as soon as they arise.
