What is this place?

The PhUSE Wiki is an [PhUSE](#) /FDA/Industry collaboration to provide a medium to share information specifically relating to clinical trial informatics. The wiki has three main goals:

1. To support the [Computational Science Symposium \(CSS\) Working Groups](#) by creating an online collaboration environment.
2. To support the [sharing](#) of statistical and informatics software code (SAS,R etc).
3. To serve as a medium to share information related to software programming and processes for pharmaceutical, biotech, CRO, medical device and health care programmers.

What can I do here?

Well that depends who you are. If you are an [CSS Working](#)

How transparent are the reports on clinical trials? If we happen to read scientific journals we may have just noticed or felt that the information provided in these articles aren't always adequate in terms of providing information on how the trial was conducted, how patients were randomized, what methods were used, how did the trialists arrive at the sample size and so on... A gloomy situation indeed...but maybe there is a ray of hope...
