Single Day Event

Workflow Automation and/or Optimisation

- Review and highlights of the 2016 state of the top 20 biopharmaceutical companies
- Automated self-documenting programs, automated table shells, landing zones and the importance of standards • Meta-data driven automation of TLF programs
- Computing Environments (SEs)
- Data Integration automation
- An iterative approach to workflow driven process optimization
- The eRAP tool: demo of an aid to improving the quality and delivery of analysis plans
- Autoquery manager: self healing software & high performance reporting
- From standards management to final analysis: workflow driven automation in primary research

Agenda

Single Day Event

Workflow Automation and/or Optimisation

09:30–10:00	Review and Highlights of the 2016 Survey of the Top 20 Biopharmaceutical Companies' Statistical Computing Environments (SCEs) Jean-Marc Ferran & James McDermott, <i>JM Partners</i>
10:00–10:30	Data-integration Automation Florence Buchheit & Gregory Pinault, <i>Novartis</i>
10:30–11:00	Morning break
11:00–11:30	Automated Self-documenting Programs, Automated Table Shells, Landing Zones and the Importance of Standards Christoph Ziegler, <i>Roche</i>
11:30–12:00	Metadata-driven Programming of Clinical Statistical Results Displays Florian Storch, <i>Analytical Software</i>
12:00–12:30	The eRAP Tool: Demo of an Aid to Improving the Quality and Delivery of Analysis Plans Michael Roughton, <i>Novartis</i>
12:30–13:30	Lunch and networking
13:30–14:00	An Iterative Approach to Workflow Automation and Optimisation Dave Iberson-Hurst, <i>Assero Limited</i>
14:00–14:30	Metadata-driven Automation of TFL Programs Rafi Rahi, <i>Shafi Consultancy Limited</i>
14:30–15:00	Demo: From Standards Management to Final Analysis: Workflow-driven Automation in Primary Research Daniel Christen, <i>SAS</i>
15:00–15:30	Afternoon break
15:30–16:00	Metadata-driven Process from Global Definition to Analysis Specifics Marjorie Nowak & Aurélien Guillouche, <i>Novartis</i>
16:00–16:30	Autoquery Manager: Self-healing Software & High-performance Reporting Ceferino Garcia, <i>Roche</i>
16:30–17:00	PHUSE Jules van der Zalm, <i>PhUSE</i>
17:00–17:30	Closing and get-together
