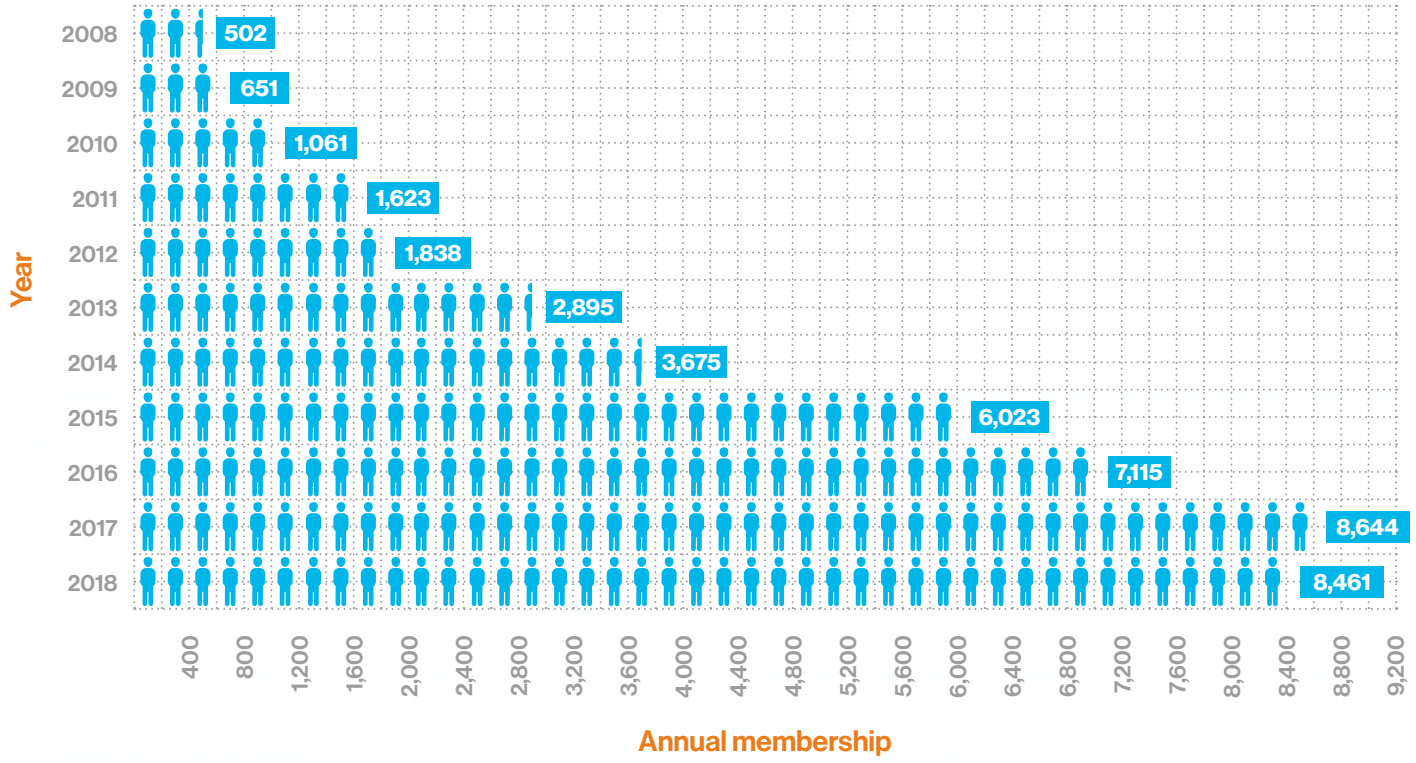
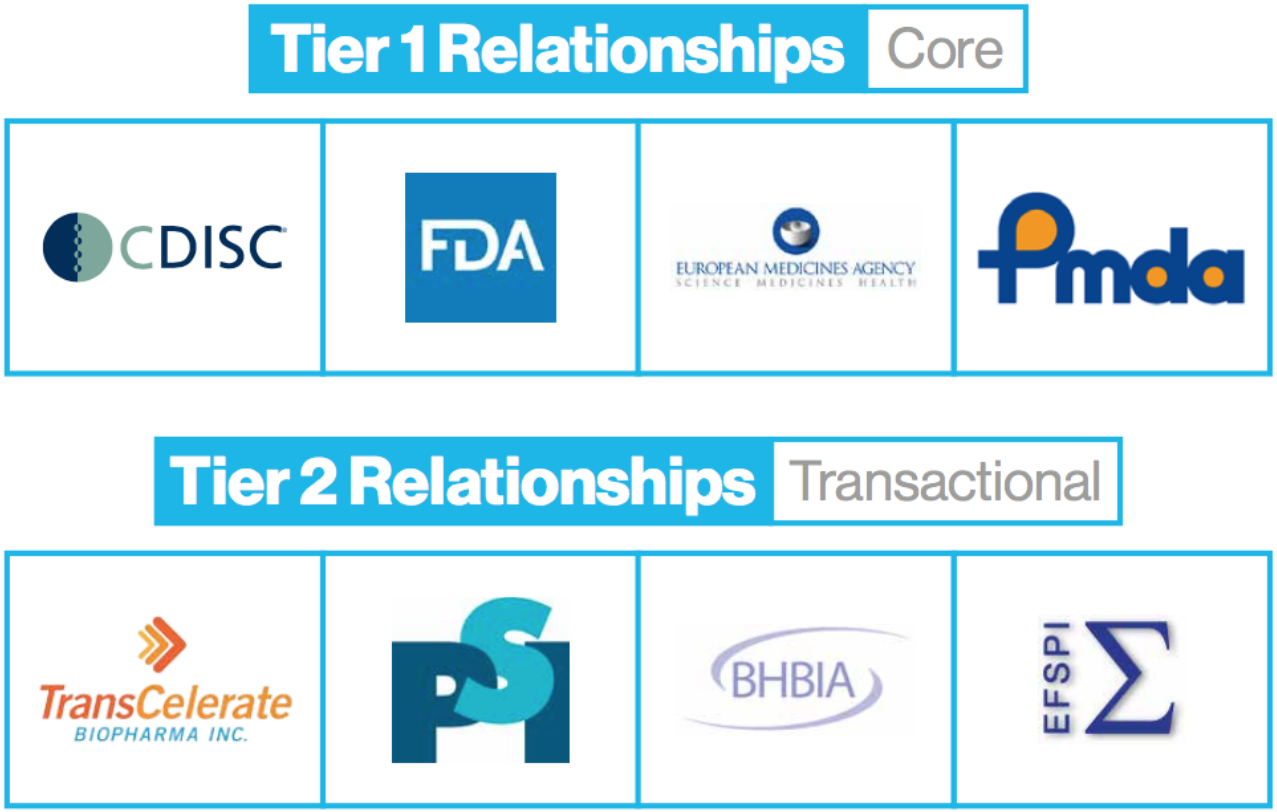
PhUSE is the World's Largest Biometrics Society

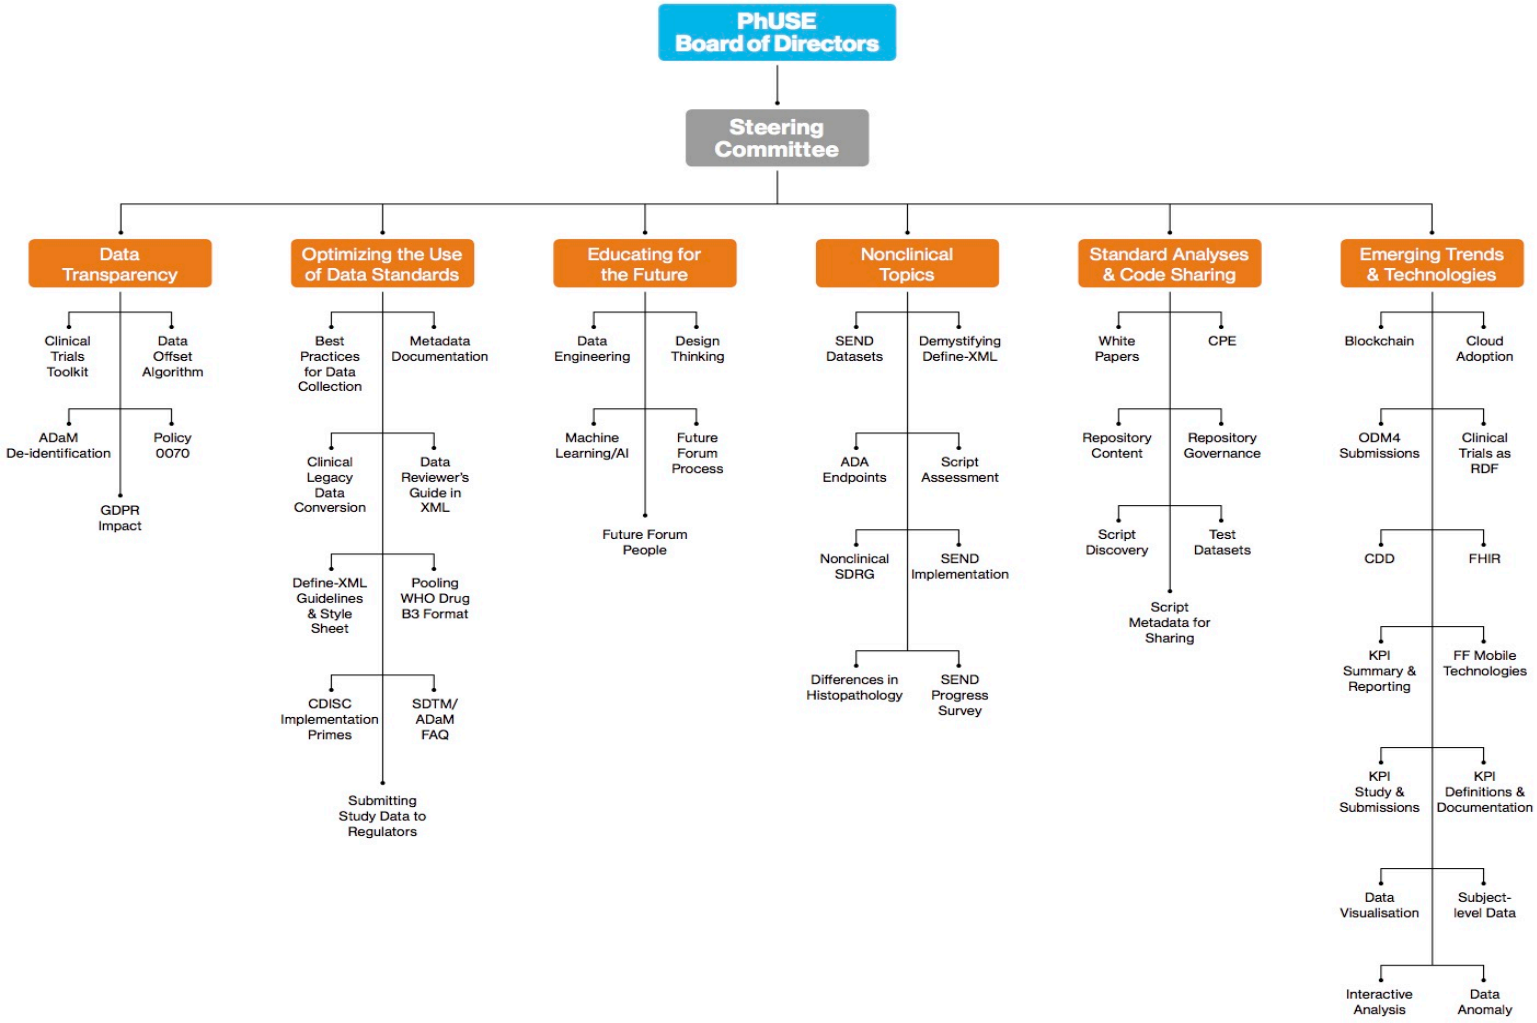


** Figures not final*

We are resource constrained. We need an easy way to focus our time in a way that best suits our members and to show value-add.



Working Groups are the fastest growing part of PhUSE and are our way of gaining traction with our core partners.



PhUSE Final Deliverables Catalogue

The PhUSE CS Working Groups bring together academia, industry, technology providers and regulatory agencies including the FDA to collaborate on projects to address unmet computational science needs. This catalogue provides a single point of reference for content developed by the CS Working Group projects.
