

STUDY BUILDER

Centralized Study Specifications from
Data Collection to Reporting

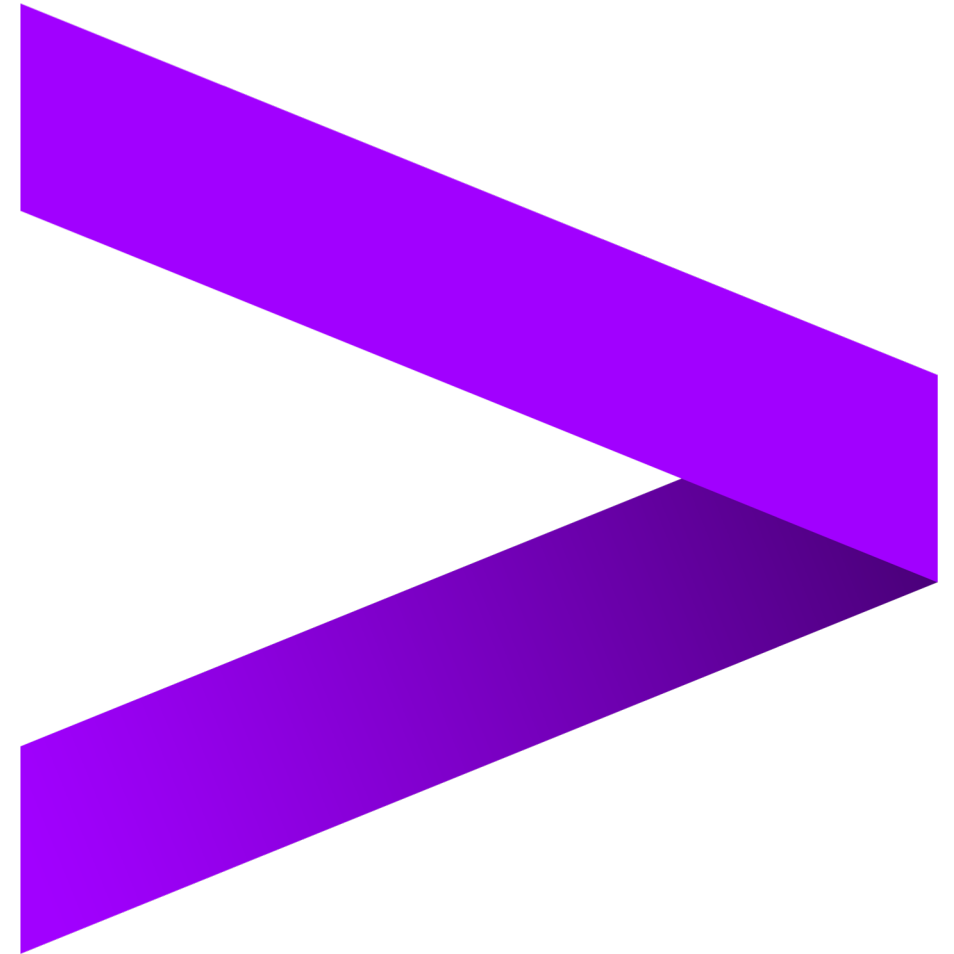

PhUSE US Connect 2019 - Baltimore

STUDY BUILDER

CENTRALIZED STUDY SPECIFICATIONS FROM DATA COLLECTION TO REPORTING

AGENDA

- Study Design & Build Challenges
- Study Builder Vision
- Prototype Demo

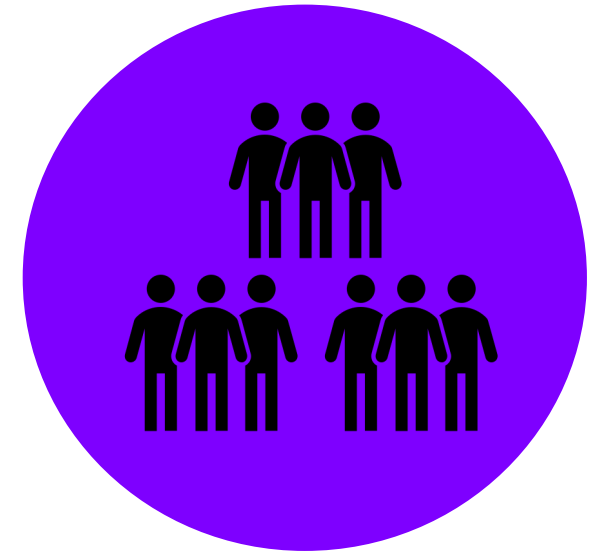

STUDY BUILDER CHALLENGES

Designing and
building a study is
a long process

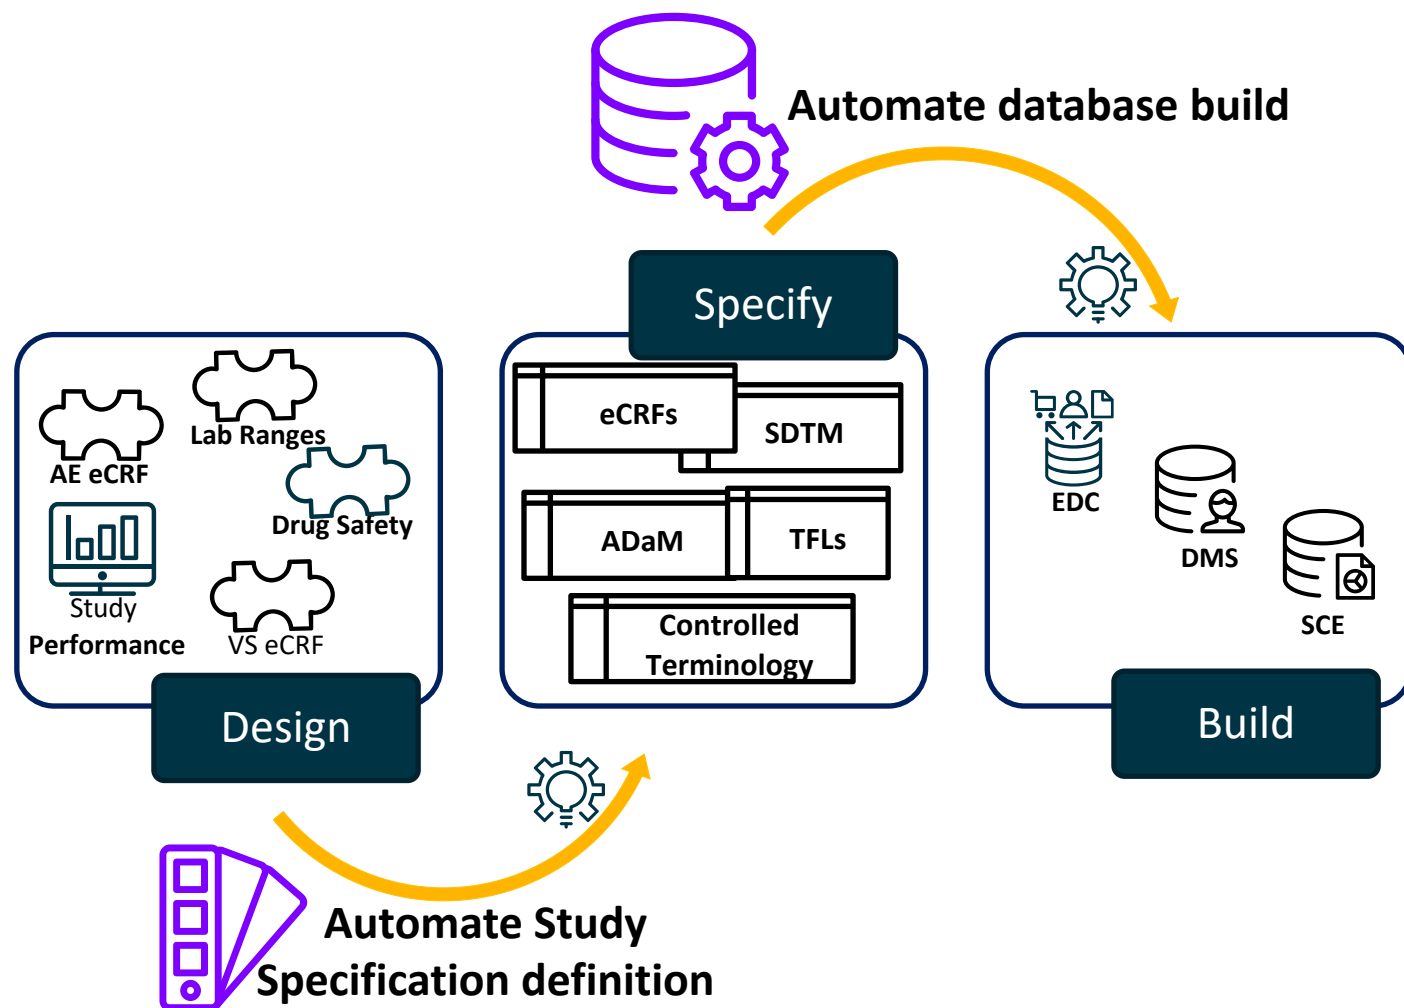

Tasks and activities are
manual steps in the
process

Frequent rework
due to lack of
collaboration across
roles

STUDY BUILDER VISION

Improve Study Design process based on outcome-driven decisions

Streamline Study Specification based on Data Standards and historical information

Automate Build of databases using defined specifications

Facilitate End to End Traceability from Protocol to Database Build

PROTOTYPE DEMO

THANK
YOU

Accenture Life Sciences
Patient Inspired. Outcomes Driven.
