ALONA BULYCHOVA

Senior Statistical Programmer

Alona has a Bachelor's Degree in Engineering Applied Physics and a Master's Degree in Theoretical and Mathematical Physics. Having completed Biostatistics University Program by Intego & Experis, she has been working as a Statistical Programmer and Study Lead for more than 3 years.

She has experience in Oncology and Infectious Diseases Specialties, including Last Phases and Early Development Studies. Also, she has significant experience in teaching and mentoring.

Being inspired by development, communication, motivation and importance of working in Healthcare, she is sharing her mindset with colleagues on improving efficiency and helping more people.
