CATASTROPHE | [GREECE](#)

Greece faces scorching temperatures as wildfires persist

Published 07/26/2023 | last updated 07/26/2023

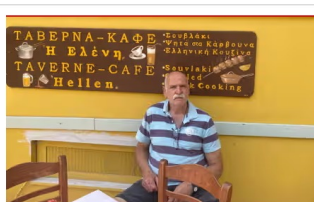

Firefighters were racing to control blazes as temperatures soared above the 40 degrees Celsius mark. Meanwhile, three elderly people died in Italy's Sicily. DW has more.

Heatwaves

Teenager among 15 heat-related deaths as Japan and South Korea swelter

In South Korea, 12 people died from heat-related deaths last weekend, while in Japan, three people died including a 13 year-old on her way back from school

A green CRO?

The basis of us, our CRO

- Our employees

- Our customers

- Our market companions

- Our service provider

Zero emissions

As a company, we are part of a new "green economy" that is committed to the overarching goal of achieving net-zero emissions as quickly as possible.

Currently: more than zero emissions

Carbon footprint according to Greenhouse Gas Protocol Standard

73,0t CO₂e/Chrestos

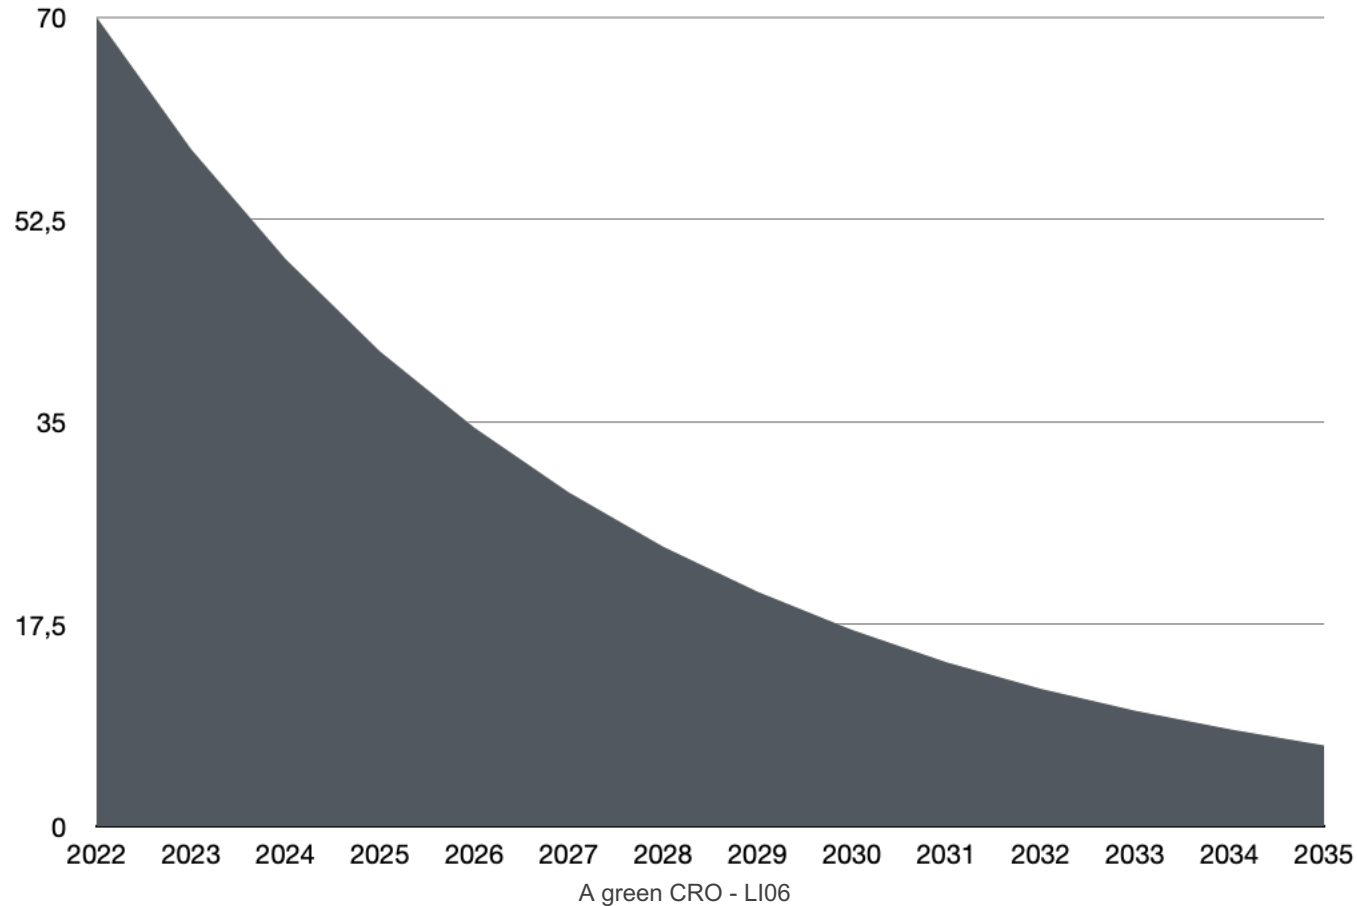

1,24t CO₂e/employee

■ Total Emissions (in t of CO₂e)

Chrestos

DIE GRÜNE CRO

Our path to climate neutrality

In short:

1. Homework
2. Use multipliers

Our path to climate neutrality

1. Homework

- Use capital resources
- For operating materials, we focus on 'reduce, reuse, recycle'.
- Commissioning services, we rely on partners from the green economy.

Code of Conduct for service providers

Close »

02-2021

03-2021

completed

With a code of conduct, we want to agree with our service providers and suppliers on compliance with the law, fair business conduct, and environmental protection.

The code is discussed with the service providers and signed by authorized persons.

All current service and future providers must confirm compliance with the code. This is a prerequisite for entering into a business relationship with Chrestos.

Green Hygiene: Ecological hand soap

[Close »](#)

07-2022

09-2022

completed

Until now, we have been using liquid soap in commercially available (small) packages. In order to avoid packaging waste and to be able to use soaps with an eco-certificate, we are switching to products / systems from Sonett, the winner of the German Sustainability Award 2022.

Our path to climate neutrality

2. Use multipliers

- Our employees
- Our customers
- Our market companions
- Conferences

Promote innovations

- Acting as sustainably as possible
- Major goal of climate neutrality requires innovation.
- We allow new thinking, support it and devote resources to it.

We see our vision

We want to be a climate-neutral company, consistently focused on sustainability in all areas, and stop striving to improve.

- **We see our Chrestos team**
- **We see pharmaceutical companies**
- **And we see contract research organizations**

Thank you!
