

Open Source Pavilion

PHUSE OS Pavilion – Block Party

Michael Rimler, PHUSE, US
Eli Miller, Atorus Research, Inc., US

ABSTRACT

Ever been to a neighborhood block party - where you meet your neighbors, learn about their interests, and potentially find ways to help each other with your own 'around-the-house to do list'? That's what this session is aiming to do.

Are you contributing to an industry working group or initiative in the Open Source realm? Are you trying to solve a problem related to, or using, open source technology? This session is intended to introduce members of our community who are doing the same, with the aim to create new connections to either accelerate existing objectives or create new ones.

LINK TO SLIDES

To access the slides presented during the session, please navigate to:
