EU Connect 2025
Event Agenda

16–19 November
CCH – Congress Center Hamburg

phuse.global

Agenda subject to change. Correct as of 14 November.

Navigate the Agenda

Stream Codes
Application Development **(AD)**
Analytics & Statistics **(AS)**
Coding Tips & Tricks **(CT)**
Data Handling & Data Engineering **(DH)**
Data Standards & Governance **(DS)**
Data Visualisation **(DV)**
Leadership Through Innovation **(LI)**
Machine Learning, AI & Large Language Models **(ML)**
Open Source Technologies **(OS)**
Professional Development **(PD)**
People Leadership & Management **(PM)**
Poster Presentations **(PP)**
Real-world Evidence **(RE)**
Submissions & Agencies **(SA)**
Software Demonstrations **(SD)**
Standards Implementation **(SI)**
Scripts, Macros & Automation **(SM)**
Trends & Technology **(TT)**

View the Stream descriptions *here.*

Hands-on Workshops (HoW)
Hands-on Workshops are interactive sessions which allow topics to be explored in greater detail. Find full information *here.*

Interactive Sessions
The People Leadership & Management Stream will be holding an Interactive Session. This will cover the topics of leadership styles and questioning techniques.

Social & Networking Events
1. **Welcome Event**
   Kick off the Connect with an evening of dynamic networking! This event is your perfect opportunity to connect with a wide range of professionals, all in a relaxed and welcoming atmosphere. Make the most of this chance to expand your network and begin the event with new connections.

2. **Connect Dinner**
   Truly a night to remember, this renowned PHUSE social event gathers all attendees for an evening of celebration where they can enjoy a delicious dinner and dance the night away!

3. **Poster Session**
   Poster Presentations cover Stream topics in a visual manner and allow for 90 minutes of engaging conversation and networking.

4. **Social & Wellness**
   From guided walking tours that explore local highlights, to calming mindfulness activities like meditation and breathwork, there's a range of engaging experiences designed to bring people together, spark creativity, and promote well-being – something for everyone to enjoy.

Sunday 16 November

Time (CET)	X1-2	X3-4	X5-6	Time (CET)
12:00–14:00	**Guided Walking Tour** – Meet Outside the Connect Venue – CCH			12:00–14:00
From 14:00	**Registration** – Foyer X			From 14:00
14:30–16:00	**Hands-on Workshop** Wine & Define: Demystifying Define-XML with Pinnacle 21 – A Workshop to Sip and Simplify *CERTARA PINNACLE 21*	**Hands-on Workshop:** Hey! Look at My Shiny App! *instem*	**Hands-on Workshop** The Digital Protocol and USDM – The Eligibility Criteria Life Cycle *TransCelerate BIOPHARMA INC. · cdisc*	14:30–16:00
16:15–17:00	**Chair & Speakers Meeting**			16:15–17:00
17:00–18:30	**Welcome Event** – Hall Y	*Sponsored by Atorus Research* *atorus*			17:00–18:30

Agenda subject to change. Correct as of 14 November.

Monday 17 November

Agenda is subject to change. Version correct as of 14 November.

Time (CET)	X1-2	X3-4	X5-6	X8	X9	X10	X11	X12	Time (CET)
From 08:00	Exhibition Hall Open – Welcome Refreshments | Hall Y								From 08:00
09:00–10:30	Keynote Speaker – David McCandless – 'Data is Beautiful – The Interesting, Unexpected and Sometimes Magical Effects of Visualising Data' | Hall Z (Plenary Room)								09:00–10:30
10:30–11:00	Morning Break – Mindfulness Mediation – X7 (10:35 – 10:55) | *Sponsored by Alun Bedding Coaching & Consulting* ÂLUN | Telse's Sketch Portraits To Go – Hall Y, Booth 43 (10:30 – 11:00)								10:30–11:00
11:00–11:30	Hands-on Workshop: Protocol to Study Live in 15 Mins – USDM, AI and BCs in Action **data4knowledge**	SI01: Launching CDISC CORE v1.0: A New Standard for Automated Study Conformance *Verisian & CDISC*	PM04: Neurodriven Mentorship: Recognising and Teaching Different Kinds of Thinkers *STATECS*	CT01: Hash-ing It Out: Bringing SAS to the Next Level *Chrestos* CT02: How Does a Computer Really Process Your SAS Code? *Phastar*	AS01: Fit-For-Purpose Approach of RBQM in Small Clinical Trials *Genmab & Johnson & Johnson*	DV01: ResponDex – Response Data Exploration Dashboard *Armat Analytics*	AD01: JazzAIR: Advancing Clinical Study Reporting Through Modern Development Practices and Testing Strategy *Jazz Pharmaceuticals & Appsilon*	ML01: Automated Mock TFL Using an RAG LLM Setup *Novo Nordisk*	11:00–11:30
11:30–12:00		SI02: From Standards to Strategy: Customising CDISC Open Rules for the TMF Reference Model *Enovalife*	PM05: Navigating Anonymous Employee Feedback: A Manager's Guide to Constructive Action *PPD*	CT03: Enhancing Clinical Data Analysis: The PROC GREPLAY Advantage *Zifo RnD Solutions* CT04: Efficient SAS Programming: CHOOSEC/CHOOSEN and WHICHC/WHICHN Over the Traditional IF-THEN-ELSE Clause *Syneos Health*	AS02: Transforming Study-Specific Reporting (SSR Trends) Through an Innovative Data Pipeline Architecture Approach *Johnson & Johnson*	DV03: Your Outputs Deserve a Second Set of Eyes – Meet ELARA *STATECS*	AD02: Overcoming Challenges in Collaborative Spreadsheet Editing with Shiny, SpreadJS and JSON-Patch *Cytel*	ML02: SAMBA: Bridging the Gap – How GenAI Transforms Analysis Plans into ADaM Specs *Merck KGaA*	11:30–12:00
12:00–12:30		SI03: The Chicken, the Egg and the ADaM: Cracking the PRE-ADSL vs ADSL Sequence *Fortrea*	PM06: Essential Conflict Management Tools for Emerging Leaders: From Tension to Transformation *MARS*	CT15: Building Reusable Precision Logic in SAS Using PROC FCMP *BioBrain PRO* CT14: Micro-Decisions, Macro Impact: The Role of Agile Thinking in Every Line of Code *Cytel*	AS14: GLMM and GEE for Categorical Repeated Measures – Linking SAS and R *Veramed*	DV02: Elevating Data Advocacy: Transforming Dashboards with React.JS and AI-Powered Innovation *Merck KGaA*	AD05: Unlocking Efficiency Through Digitisation: Plotting the Journey with Atlas for Clinical Trial Output Generation *Roche*	ML03: IDD'AI: Automating the Tedious So You Can Focus on the Genius *IDDI*	12:00–12:30
12:30–13:30	Lunch Break – Mindfulness Mediation – X7 (13:00 – 13:25) | *Sponsored by Alun Bedding Coaching & Consulting* ÂLUN | Telse's Sketch Portraits To Go – Hall Y, Booth 43 (12:30–13:30)								12:30–13:30
12:00–14:00	Portrait Headshot Session – Exhibition Hall (Hall Y)								12:00–14:00
13:30–14:00	Interactive Session (PM): Invisible Glue: Trust, Influence and The Architecture of Teamwork *Cytel & Lightbulb Moments*	SM04: More Science, Less Bookkeeping: Our Path to Hyper-Efficient ADaM Program Generation via AI, Process Improvements, and Good Old-Fashioned Programming *Novo Nordisk*	TT01: Synthetic Data – The Game Changer in Drug Development *SAS*	CT09: One-Sample Log-Rank Test for One Sample Survival Studies: SAS Code vs R Code *MENARINI RICERCHE* CT08: Enhancing Stats Programming Efficiency in Pharma: Harnessing Large Language Models (LLMs) such as ChatGPT for Accelerated Development and Validation *Altair*	AS04: Bayesian Inference for Medical Device Reliability: Improving Safety and Effectiveness Assessments *Symbio*	DV04: Showcasing a Shiny Tool for Evaluating Biomarkers for Derisking Clinical Trials *Roche*	AD04: Harnessing the Power of Interactive SAS Outputs Through SASpy in a Flask *AstraZeneca*	ML04: Neither Magic Wand Nor Terminator: Finding the Sweet Spot in AI-Assisted Coding *Chrestos*	13:30–14:00
14:00–14:30		SM05: Admiral-Enhanced Workflow: Automating SDTM to ADNCA Dataset Creation *Roche*	TT02: Why Wait for Real Data? The Power of Synthetic Data in Modern Clinical Trials *GENINVO*	CT07: A New Gateway to Open Source in SAS *SAS* CT10: Risk.assessr: Extracting OOP Function Details *Sanofi*	AS03: Blinded & Coordinated: Aligning People and Processes To Prevent Unblinding *Fortrea*	DV05: Interactive Exploration of Top Line Results: Integrating DaVinci with Teal *Boehringer Ingelheim*	AD13: Hybrid Way To Develop Patient Narratives *Fortrea*	ML05: Leveraging Gen AI for R Shiny App Code Development: A Case Study with Event Prediction *Bristol Myers Squibb*	14:00–14:30
14:30–15:00		SM06: Why I Can't See Myself Coding That Much Anymore *Daiichi Sankyo*	TT03: Powering Up Programming Milestones: From Chaos to Cohesion *AstraZeneca*	CT11: RECISTance Is Useless, A Novel Visualisation Of RECIST Data Using Bubbles, On A Time-line. *Phastar* CT12: Fun With Figures *Veramed*	AS06: Multiple Imputations – Overview of Missing Data Problem, Solution Methods and SAS Implementation *CSL Vifor*	DV06: Cracking the Curve: Unlocking Clinical Insights with Ridgeline Plots *BioBrain PRO*	AD06: An Integrated J&J Platform To Enable Sustainable Clinical Trial Design *Johnson & Johnson*	ML06: AI-Native Issue-Risk Intelligence: Connecting Issues to Known Risks and Identifying Emerging Risks *Roche & Genentech*	14:30–15:00
15:00–15:30		SM07: Code Compare – A Machine Learning Based Framework for Code Plagiarism Analysis and Detection *IQVIA*	TT04: Twice as Much Ain't Twice as Good: Is Double Programming Really the Gold Standard We Think it Is? *Chrestos*	CT13: Being a Perfect Programmer: Code Smarter, Review Sharper, and Embrace the Future *Catalyst Clinical Research Catalyst Flex* CT05: Floating Points Are as Easy as 01, 10, 11! *Phastar*	AS07: Contributions to CAMIS PHUSE Project in 2025: Tobit Regression, Reference-based Multiple Imputation and Tipping Point Analysis *Johnson & Johnson*	DV07: Interactive Insights: Leveraging R Shiny for Enhanced Data Visualisation in Clinical Trial Readouts *Roche*	AD07: Enhancing Clinical Trial Management with Automated Data Integration and Real-Time Analytics *OCS Life Sciences & Sopra Steria*	ML07: Poseidon: Streamlined Regulatory Screening of HA Websites with AI/ML to Extract Updates and Reduce Manual Efforts *Merck KGaA & HMS Analytical Software*	15:00–15:30
15:30–16:00	Afternoon Break – Telse's Sketch Portraits To Go – Hall Y, Booth 43 (15:30 – 16:00)								15:30–16:00
16:00–16:30	Hands-on Workshop: RBQM Workshop – Building and Collaborating on Open-Source Tools and Best Practices for RBQM **Roche**	SM08: I Propose Aspose! Automating PDFs and Microsoft Office Files *Bayer*	PM01: The Human Element: Synergising Emotional and Physical Intelligence in Statistical Programming Leadership *MSD*	PD01: How To Become a More Productive Programmer Using LLMs (Lots of Limb Movements) *Phastar*	AS08: Is There Really Any Benefit to Stratified Randomisation Compared to Simple Randomisation with Covariate Adjustment? *Boehringer Ingelheim*	DV08: Visualising the Invisible: Patient Journey with Waterfall, Spider and Swimmer Plots *GENINVO & MARS*	AD08: USDM Synthetic Test Data Generation *Veramed*	ML08: From Schedules of Activities (SoAs) to USDM: Automating Protocol Extraction Using Large Language Models *data4knowledge*	16:00–16:30
16:30–17:00		SM09: Automating RTF-to-PDF Conversion for BIMO Submissions: A Python-Based End-to-End Solution *Bristol Myers Squibb*	PM02: Why It's Important To Build a Global Team Spirit – And Some Ideas on How To Do it *Roche*	PD02: Swarming Success: Optimising Efficiency in Statistical Programming *Chrestos*	AS09: Strengthening Observational Study Accuracy: Mitigating Bias Using Propensity Score Matching (PSM) *Zifo RnD Solutions*	DV09: Visualising Trends and Bottlenecks: A Python Web App for QC Progress Monitoring *Phastar*	AD09: No Patients? No Problem – Define Your Study Data with Python at the CORE *Phastar*	ML09: Talk to Your Data: Accelerating Insights with AI-Powered RShiny Dashboards *Formation Bio*	16:30–17:00
17:00–17:30		SM10: From Hassle to Harmony: Unifying Code Quality Experience in R and SAS *Novo Nordisk*	PM03: Leading with Emotions – Positive Leadership and the Power of Optimism *HEADSUP!*	PD04: The Kids Are All Right: How Investing in Career-Young Talent Can Create Engaged Future Leaders *Veramed*	AS10: Statistical Endpoints and Analysis in Diagnostic Imaging: The Matrix Has You... and Your Data *Blue Earth Diagnostics*	DV10: Check Yourself: Edit Checks and Queries Made Easy with Shiny *Atorus Research*	AD14: Modernising Clinical Data Science: Best Practices for a Unified, Governed SCE *Domino Data Lab*	ML10: How to Identify and Operationalise GenAI Use Cases Which Really Help You *HMS Analytical Software*	17:00–17:30
17:30	Close								17:30
19:00–23:00	Connect Dinner – Hall 3 | *Sponsored by Instem* **instem**								19:00–23:00

Tuesday 18 November

Agenda is subject to change. Version correct as of 14 November.

Time (CET)	X1-2	X3-4	X5-6	X8	X9	X10	X11	X12	Time (CET)
06:30	PHUSE 5k Run Around Hamburg – Meet Outside the Connect Venue - CCH – All Abilities Welcome								06:30
From 08:00	Exhibition Hall Open – Welcome Refreshments | Hall Y								From 08:00
09:00–10:30	Keynote Speaker – Dan Hunt – 'Creating and Leading High-Performance Teams to Medal Success' | Hall Z (Plenary Room)								09:00–10:30
10:30–11:00	Morning Break – Mindfulness Mediation – X7 (10:35 – 10:55) | Sponsored by Alun Bedding Coaching & Consulting	Telse's Sketch Portraits To Go – Hall Y, Booth 43 (10:30 – 11:00)							10:30–11:00
11:00–11:30	Hands-on Workshop: Developing Enterprise-Grade Web Applications Using No Code, e.g. Write Your Own SCE — ALTAIR	SM11: %batchrunprograms: SAS Studio Background Submit on Multiple Programs — OCS Life Sciences	TT05: Digital SAP Model Using Biomedical Concepts — Veramed	PD03: The Power of Early Careers: Investing in the Next Generation — Roche	AS11: Navigating Experimental Arms in Subtype Studies: Strategies for Precision and Clarity — STATECS	SD01: Revolutionising Clinical Trial Monitoring and Data Analysis with AR- and VR-Driven Immersive Analytics — Tata Consultancy Services	AD11: SAS Viya and Posit Team Integration: Git-Enabled, AI-Driven Clinical Reporting with Azure and Open-Source Technologies — Debiopharm International	OS17: End-to-End R: Where To Start? — Astellas Pharma	11:00–11:30
11:30–12:00		SM13: Turning Data into Deliverables: Automating Biometrics from Metadata to TFLs — GENINVO	TT06: From SDTM to a Graph-Based, Multi-Purpose Interface for Data — Capish	PD05: Code, Collaborate, Conquer: The Future-Proof Programmer in an AI World — Coronado Research	AS12: Inverse Probability Weighting in Multiple Groups: Balancing Baseline Characteristics and Improving Precision of Average Treatment Effect Estimation — Elderbrook Solutions	SD03: A Smarter Way To Track QC: Integrated Workflows in a GxP-Validated Statistical Computing Environment — Domino Data Lab	AD12: The Key Features Every Statistical Computing Environment Should Have and Often Lacks. A Presentation About Almost 20 Years of Experiences with SCEs — Code2be	OS02: Advancing Automated Non-Compartmental Analysis with R Shiny — Lucid Analytics	11:30–12:00
12:00–12:30		SM12: Using the Full Power of SAS To Resolve Algorithmic MedDRA SMQs — Elderbrook Solutions	TT07: From Mock to Output: Using Generative AI to Write SAS Code for Standards-Based TFLs — Sycamore Informatics	PD06: From Overload to Insight: Personal Knowledge Management for Clinical Data Scientists in the Age of Generative AI — Bayer	AS13: New Multiple Imputation Approaches with SAS — VALOS	SD02: Turbocharge Your Trials: Transform CRF Creation and the CDISC Standardisation Process with Smart Metadata Repositories and AI/ML Innovations — PointCross Life Sciences	AD10: CDISCDataset.com: An AI-Powered Platform for Generating Synthetic CDISC-Compliant SDTM and ADaM Datasets, CRFs, Protocols, TFL Shells, and Specs — BioBrain PRO	OS03: Succeed with gridify: Enriching R Visualisations for Regulatory Submissions — UCB Biosciences	12:00–12:30
12:30–13:30	Lunch Break – Mindfulness Mediation – X7 (13:00 – 13:25) | Sponsored by Alun Bedding Coaching & Consulting	Telse's Sketch Portraits To Go – Hall Y, Booth 43 (12:30–13:30)							12:30–13:30
13:30–14:00	Panel Discussion: Reimagining Statistical Programming: AI, Standards & the Talent of Tomorrow — Johnson & Johnson, UCB, GSK, Bayer, Merck KGaA, SAS, CDISC & Cytel	SM14: SAS Code Hidden in Plain Sight — Yabwon	TT08: Blockr: Advancing Data Pipelines with DAG-Based Workflows and LLM Orchestration — Bristol Myers Squibb	PD07: Busy ≠ Productive: Breaking the Myth of Multitasking — SGS Pharma Clinical Research	DS01: Enabling Standardised Data Collection Through Governance Processes and Automation — Novo Nordisk	SD04: Reinventing the Deliverable Tracker – from Excel to Dashboard — Veramed	DH01: A Splash in Time – Insights into a Data Pooling Time Machine — Bayer	OS06: Let's Not Get Lost in Translation: Open-Source Adoption at Novartis — Novartis	13:30–14:00
14:00–14:30		SM15: Smarter SAS Logging – With a Macro AI Hasn't Mastered (Yet) — OCS Life Sciences	TT09: Leveraging Generative AI for SAS Macro Testing and Test Data Preparation — AstraZeneca	PD10: Disruption in Clinical Trials: How Conventional Roles Are Set to Change — Sycamore Informatics	DS02: Using CDISC USDM and BCs to Select Data from Alternative Data Sources for Regulatory Purposes — ClinLine	SD05: Positron Assistant – LLM Integration in Positron — Posit	DH02: The Value of Clinical Trial Data: From Submission to Innovation — Novo Nordisk	OS05: Leveraging on R Packages for HTA Analysis & Reporting: Our Developer Journey — MSD	14:00–14:30
14:30–15:00		SM16: On the Right Track: Managing Platform Modular Studies with a Central Metadata Switchboard — Fortrea	TT10: From Static Archives to Analysis Results Standards – Maximising the Utility of Statistical Analyses — Beaconcure	PD09: Becoming an Independent Consultant – And Stepping into the Fourth Dimension — Qualiance	DS03: Qualitative ADaM Datasets and Define-XML Without Using ADaM Specs — SGS Pharma Clinical Research	SD06: AI Chatbot in an SCE — Entimo	DH03: Blockchain for Secure and Transparent Clinical Trials — Sycamore Informatics	OS04: Guiding the Direction of Open-Source Development for Faster End-to-End HTA Submissions — Novo Nordisk & Daiichi Sankyo	14:30–15:00
15:00–15:30		SM17: Towards Managing Macro Libraries in an SCE: A Vision for Reproducibility Through Version Locking — Sycamore Informatics	TT11: An Evaluation of Data Formats for Clinical Reporting in a Multilingual Environment — Novartis	PD08: From Statistical Programming to AI Automation in Data Management: A Cross-Departmental Tech Journey — Roche	DS04: ADaM Conformance Rules: Bridging the Gap Between Standards and Practice — BioBrain PRO	SD07: Developing a Compliant and Scalable Statistical Computing Environment Based on PHUSE SCE Guidelines — Atorus Research	DH04: Framework for Integrating Omics Data with Other Clinical and NonClinical Data Sources — Bristol Myers Squibb	OS07: Building a Custom Open-Source Statistical Programming Curriculum — Posit	15:00–15:30
15:30–16:00	Afternoon Break – Telse's Sketch Portraits To Go – Hall Y, Booth 43 (15:30 – 16:00)								15:30–16:00
16:00–16:30	Hands-on Workshop: Enhancing Performance with In-Memory Enabled Statistical Processes — sas	SM01: A Git-Driven Automated Workflow for Efficient ADaM and TFL Validation and Quality Control Documentation — Sanofi	TT12: Pooling Studies Through Code Traceability — Bayer	PD11: From Zero to Programming Hero: How Internships Shape Statistical Programmers in CROs — Cytel	DS05: 360i in Action: Demonstrating the Shift to Fully Digital Standards — CDISC, Novo Nordisk & Oxford University	LI04: What a Good One Looks Like – Building a Team of Internal R Experts — Pfizer	DH05: Pharmacokinetics Is Simple… Sometimes — Roche	OS08: The {teal} Framework Updates: How Open Source and Cross-Industry Collaboration Benefit Everyone! — Johnson & Johnson & Janssen Research & Development	16:00–16:30
16:30–17:00		SM02: Which Macros Are Used in the Study? — Cytel	TT13: Validated Statistical Computing: A Kubernetes Framework for Regulatory-Compliant R, Python and SAS Deployments — Altair	PD12: Debug Your 'Work Language' — Plus-Project		LI02: Closing the Knowledge Gap with a Knowledge Management Strategy Empowered by Dashboards and AI — Novo Nordisk	DH06: FAIRchive – Cloud-Based and GxP-Compliant Long-Term Archiving for Clinical Trial Data — Entimo	OS09: May the Code Be with You: Entering the pharmaverse Galaxy — Atorus Research	16:30–17:00
17:00–17:30		SM03: Untangling the Dependencies Web — Phastar	TT14: Human in the Middle: Accelerating with AI, Anchored in Quality — Formation Bio	PD13: Beyond the Code: Evolving from Clinical Programmer to Strategic Partner in Clinical Trials — Intego Clinical		LI03: Beyond the Code: Leading Innovation from the Heart of Statistical Programming — Syneos Health	DH07: Mind the Gap: Imputing Missing Dosing Times in QD & BID Regimens Using ADPPK Guidelines — Certara	OS10: {AdmiralMetabolic}: A Collaborative Journey To Develop an Admiral Extension Package for Metabolic Data — Novo Nordisk & Boehringer Ingelheim	17:00–17:30
17:30–19:00	Poster Session – Hall Y | Sponsored by Novo Nordisk								17:30–19:00
19:00	Close								19:00
19:00	Social Events – Sip & Paint – X3-4 (19:00–21:00) | Sponsored by Sycamore Informatics — Sycamore Informatics | Poker Night – X1-2 (19:00–23:00) | Hosted by Vita Global Sciences — VITA Global Sciences | Breathwork Workshop – X7 (19:15–20:00) | Sponsored by Alun Bedding Coaching & Consulting								19:00

Wednesday 19 November

Agenda is subject to change. Version correct as of 14 November.

Time (CET)	X1-2	X3-4	X5-6	X8	X9	X10	X11	X12	Time (CET)
From 08:00	**Exhibition Hall Open** – Welcome Refreshments | Hall Y								From 08:00
09:00–10:30	**Keynote Speaker** – James Logan – 'Unlocking the Hidden World of Odours: A New Era in Clinical Data and Diagnostics' | Hall Z (Plenary Room)								09:00–10:30
10:30–11:00	**Morning Break** – Telse's Sketch Portraits To Go – Hall Y, Booth 43 (10:30 – 11:00)								10:30–11:00
11:00–11:30	**Hands-on Workshop: Interactive Data Visualisation Using the Teal Framework** *Appsilon*	**SI04: What We Gained (and Lost) by Using Python in SDTM Conversions** *SGS Pharma Clinical Research*	**PM07: The Power of Embracing the Unknown for Personal Growth** *Novo Nordisk*	**RE01: Close Encounters with Real-World Data** *Certara & IBM*	**SA08: Efficient Conversion of SDTM/ADaM Specifications from Excel to Define-XML v2.1 Using Pinnacle 21 Community** *Japan Tobacco*	**LIO1: 'Human in' or 'Human out' of the Loop: Impact and Things To Consider While Deploying AI** *SAS*	**ML11: Leveraging AI for Seamless SAS to R Migration: Challenges and Opportunities** *HMS Analytical & Boehringer Ingelheim*	**OS13: Leveraging Open-Source Python Tools to Improve Efficiency and Transparency in Clinical Trials** *GENINVO*	11:00–11:30
11:30–12:00		**SI05: JSON for Submissions: Why You Should Care, What You Need To Know, and What To Do Now** *Sycamore Informatics*	**PM08: Leading Through Talents** *Elderbrook Solutions*	**RE03: Beyond Tokenisation: Considerations for Linking Healthcare Data Sets for Scientific Research** *Graticule*	**SA02: The Art of Timely Deliverables: How We Learned To Stop Worrying and Love the Deadline** *Novo Nordisk*	**LIO5: Think Like a Quarterback: Deliver Projects, Not Fumbles** *Plus-Project*	**ML12: From Breaking Bad to Breaking Data: Unlocking TFL PDFs** *UCB Biosciences*	**OS12: Bridging Languages: Building Integrated Analytical Tools with SAS Language, R and Python for Clinical Data** *Altair*	11:30–12:00
12:00–12:30		**SI06: From XPT to Dataset-JSON: Enabling Real-Time Validation and Streamlined Submissions** *Cytel*	**PM09: Beyond Authority: Navigating Challenges, Earning Trust and Building High-Performance Teams in FSP and Outsourced Delivery Models** *Vita Global Sciences*	**RE02: FHIR for RWD Submissions: Why a US Regulation Signals a Global Shift – And What You Need To Do Now** *Sycamore Informatics*	**SA03: Oh Dear, Another Crisis? A Programmer's Guide to Surviving and Thriving Through the FDA ODAC** *AstraZeneca*	**LIO6: Quality as an Innovation Catalyst: Transforming Tech-QA Dynamics** *Formation Bio*	**ML13: Rethinking Automation in the AI Era** *MMS Holdings*	**OS11: Aspirations of Language Agnosticism – Experience of Expanding the Programming Stack with Python** *Novo Nordisk*	12:00–12:30
12:30–13:30	**Lunch Break** – Telse's Sketch Portraits To Go – Hall Y, Booth 43 (12:30–13:30)								12:30–13:30
13:30–14:00	**Hands-on Workshop: Next Generation Clinical Workflows in R and GenAI with Posit Team** *Posit*	**SI07: A Collaborative Fast Track to Clinical Data Flow Modernisation and Standards Governance Implementation** *Danone Research & Innovation & Qualiance*	**PM11: Tried and Tested Principles for Building, Managing and Leading High-Performing Teams Through Challenging Initiatives** *Altair*	**RE06: Unlocking Healthcare Insights: Graph-Based Modelling and Analysis of Synthetic Patient Data** *Pfizer*	**SA04: From Outsourced to Open Source: Denali's R-Driven Transformation in Biometrics** *Denali Therapeutics*	**LIO9: R Adoption and Change Management – A Large CRO Perspective** *Thermo Fisher*	**ML14: Large Language Models as Medical Writers: Challenges and Solutions** *IQVIA*	**OS14: Collaborative Industry Open-Source Solutions for Clinical Trial Quality Management** *Roche & Boehringer Ingelheim*	13:30–14:00
14:00–14:30		**SI08: Simplify, Automate, Submit: An In-House Framework for Seamless Metadata Flow from (Pre)Production to Submission** *Ascendis Pharma & TGU Consult*	**PM10: Embracing the Fear of Change in an Ever-Changing Industry** *IQVIA*	**RE05: Keeping it Real: A Tiered Approach to Real-World Data Quality by Leveraging Synthetic Data** *SAS*	**SA05: The Show Must Go On: Best Practices for Submitting SDTM Data for Ongoing Studies** *Certara*	**LIO8: R-Burst: The User Support Approach Shaping GSK's Open-Source Strategy** *GSK*	**ML15: Everyday AI for Statistical Programmers: Global Implementation of a Clinical Analysis Assistant** *Roche*	**OS15: An Evolving Role of Statistical Programmers: Leveraging New Capabilities in Open-Source Environments** *MSD*	14:00–14:30
14:30–15:00		**SI09: Add More MSG to Your Annotations** *IDDI*	**PM12: SAIL.R: Navigating Change Together in Clinical Analytics!** *Johnson & Johnson*	**RE04: Enhancing the Validation and Simulation of Real-World Multi-Site Data with R** *IQVIA*	**SA06: Diversity, Inclusion and Equality – It's Just Good Science!** *Veramed*	**LIO7: Landing Moonshots** *Roche*	**ML16: Detecting Logical Errors in Clinical Programming by Applying ChatGPT** *Intego Clinical*	**OS16: Open-Source Practicalities and the Legal Side** *Katja Glass*	14:30–15:00
15:00–15:30	**Closing Remarks & Awards** | Hall Z (Plenary Room)								15:00–15:30
15:30	**Close**								15:30
